Has a cancer killer been discovered?

RAAX11 Extract FDA registered *

Brazilian scientists have discovered a tropical plant substance that holds great promise in the fight against various types of cancer. Up to now, this South American folk remedy has mainly been used against diabetes.

Scientists report that during laboratory tests the substance destroyed cancer cells that had been resistant to treatment up to now. This is a rare occurrence. The substance is so promising it is being kept under wraps at present. Even very resistant Leukemia cells die off

Informattions

Specially at breast cancer the OPC Agaricus protocol shows that it works in

99,9% of all cases. Even at late stage IV it seems to work. From late 2004 to today about 5217 women took the protocol. Many doctors all over the world are, reporting, since he is using the OPC Agaricus protocol nobody of his patient died. So we receive this positive message everyday from all over the world. Now many, many patients entered into the protocol from UK, where many clinics started to use our special protocol.

If you are living in the US, just call Mr. Isely and he will explain how it works. Or fill out form

* Required

Cancer and no hope.
You need help?
Let's talk about it...

Anti cancer effect: ABM contains natural steroids, known for it's anti cancer effect. (It is different from the chemically produced steroids that enhance the body that is often said to be the cause of cancer). It is particularly effective in prevention of uteran cancer.

(Explanation)

* Manufacture is FDA registered

Brazilian scientists have discovered a tropical plant substance that holds great promise in the fight against various types of cancer. Up to now, this South American folk remedy has mainly been used against diabetes.

Scientists report that during laboratory tests the substance destroyed cancer cells that had been resistant to treatment up to now. This is a rare occurrence. The substance is so promising it is being kept under wraps at present.

Even very resistant Leukemia cells die off

The successful lab tests were carried out on cells from breast- brain- lung- bowel- larynx- and pancreas tumors. "What has been most surprising to us, is the fact that besides these cancer cells, leukemia cells that are normally resistant to a lot of medicines and methods of treatment, were also killed" reported the scientists. It was initially questioned whether the substance, obtained from the Chrysobalanus Icaco plant was suited for the treatment of human cancers, but the results showed that it worked with 90% of the patients.

The plant "Abajeru" has oval shaped fruit

The substance is extracted from a shrub called "Abajeru" (Chrysobalanus Icaco) , is found above all in the tropical areas of South America and bears small oval shaped fruit, blended with Agaricus brasiliense strongest extract. In Brazilian folk medicine "Abajeru" has always been used for the treatment of diabetes and rheumatism. "It was this tradition that led us to the investigation of the chemical composition of the plant" brazilian researcher commented.

This special mix has been developed for those people who experience in the past problems taking the pure Agaricus blazei Murill extract or RF 1000 extracts.

Usage

The new substance is used as a RAAX11 protocol in several countries, like Germany, Norway, Portugal, Singapore, South Africa, Switzerland, USA, with excellent results. Therefore the conclusion of this Result is that at people who are using this special extract confirm that the auto immune response had been activated, which later has been confirmed in lab analysis. Normally CEA went down in 91% of all cancer patients, according to the reports we received.

This might be a new step into future cancer treatment. If you are interested in this kind of alternative treatment, send us e-mail with you phone number and we will contact you a.s.a.p.

Latest results in South Africa, at terminal cancer patients show that it works best with like following: 5 - 30ml a day, together with RF 1000 extract, 10ml a day

plus 30ml OPC strong extract.

tested very positive with other forms of cancer, and. In 2003 we later developed a new formula with even stronger rainforest herbs for women who had been diagnosed as hopeless. That product is our RAAXX11.

In 2004 we began a trial with 91 women who were suffering from breast cancer and were diagnosed as either stage IIIb or stage IV, and who decided not to participate in a program of chemotherapy or use some other chemical therapy. These women began following a natural Agaricus program, where the Agaricus extract RF1000 was mainly used. By April, we had received confirmation that 3 women were 100% cancer free. That same month we added the new RAAX11 extract to the RF1000 protocol. Here are the results so far:

Contact:

RAAX11 Offers New Hope for an Alternative Breast Cancer Treatment

In a recent study, 91 women who were suffering from breast cancer at stage IIIb or IV took part in our RAAX11 protocol. By April 2004, 41 women had totally recovered, 23 women were in remission, 27 were stable, and only 9 had not survived, a survival rate of 91.27%. If you would like to find out how you too can participate in our ongoing study in the USA

Results:

41 Patients, entered with stage IV/IIIb, taking RAAX11 plus RF 1000, are in total recovered.

23 patients, entered with stage IV/IIIb, taking RAAX11 plus RF 1000, are in remission.

27 Patients, entered with stage IV/IIIb, taking RAAX11, plus RF 1000, are in the same stage, no change.

9 Patients, entered with stage IV/IIIb, taking RAAX11, plus RF 1000, did not survive treatment.

These figures show an extremely encouraging survival rate during our trial of 91.27%. We are proud to say that our new program may offer hope for women who are looking for alternatives.

History

For personal reasons, in 1999 we began to try to develop a natural alternative to help women with breast cancer whose only choice seemed to be chemotherapy. So we developed the RF1000 protocol, which also

If you are interested in this program, feel free to contact us and we will set you up with an alternative clinic.
