So you mean is safe to use? how long do you think would be the reccomended time usage? ↑↓

**Anonymous** 11/21/2010 ★★★★★  
@Raul It's not harmful, its the visual light spectrum. And its based on how frequency affects the body. People mostly use music for this kind of stuff ↑↓

**Puzzlespider** 11/06/2010 ★★★☆☆
