

## Cellular Aging Stops Here

**Inside every cell of your body, there is a powerful clock ticking away. It's telling your body to age, wrinkle, gray, and slow down.**

That clock is your telomeres, the caps at the end of each strand of DNA that protect it, like the plastic tips at the end of shoelaces.

**Telomeres shorten over time, leaving your DNA vulnerable to damage and causing your cells to age.** But now, there is a groundbreaking new way to help slow down, or possibly even reverse, age and lifestyle related telomere shortening.

**Based on Nobel Prize winning science,** TA-65® – a proprietary, all natural plant-based compound – can help maintain or rebuild telomeres.

TA-65® is available from T.A. Sciences® as TA-65MD® nutritional supplements, or in a new skin cream formulation.

*"Maintaining good health through the stresses and strains of touring and singing with The Who requires enormous stamina. I was recommended TA-65® by a good friend and decided to try it. After taking TA-65® for one year I noticed considerable improvement in energy levels, cold and winter infections have been a rarity. Recently I took a 6 week break from taking the product, and noticed significant energy drop off."*

*Although to my knowledge the evidence of benefit to everyone is not proven, I have no doubt that this product works for me, I hope it does the same for you."*

**- Roger Daltrey**  
Lead singer, The Who
